Budget Message – Commissioner Jerry Notarianni

Just like my colleagues, fiscal management is vitally important to me.

As a small business owner, I have an appreciation for monitoring costs, spending and revenue when it pertains to paying employees and keeping the doors open.

County government is a business and must be run as such. My commitment is to our residents – the young and the elderly. It is crucial that we spend tax dollars wisely on programs and activities that will have an impact on our economy and the future growth and development of the communities up and down the valley.

A great deal of time, effort and thought went into preparing this document. It required insight to try to help every department so they can serve the public.

During the upcoming Budget Hearing process, I will further analyze this fiscal blueprint to identify areas where additional cost savings may be realized.

I want to thank the Revenue & Finance Department for its work along with all the other staff members that participated in the process.

Please take some time to review it on our website and feel free to offer comment.

I pledge my commitment to managing your tax dollars wisely, and I appreciate your support of Lackawanna County.

*This Budget Message is respectfully submitted this 14th day of October 2016 pursuant to
Section 1.12-1203 of the Lackawanna County Home Rule Charter.*
