Department of Aging Offers Online COVID-19 Resource Guide for Older Pennsylvanians

Harrisburg, PA – The Pennsylvania Department of Aging has launched an online COVID-19 resource guide to help older adults easily find useful information related to their health, safety and well-being.

The guide is housed on the department's website under "[COVID-19 Resource Guide for Older Adults](#)" and provides older adults, their families and caregivers with information on a variety of subjects, including meals, prescriptions, protective services, scams, and how to stay active and connected.

"The Department of Aging's top priority is to ensure that the needs of older Pennsylvanians are being met. This online guide presents an overview of the resources that can help older adults maintain their health and safety during this critical time," Aging Secretary Robert Torres said. "Our department will continue to monitor these essential needs and make any changes required in our effort to provide uninterrupted services."

In addition to the COVID-19 resource guide, the department has offered guidance for aging services to help meet the needs of older Pennsylvanians while maintaining safety. This guidance, along with all of the programs that the Department of Aging provides, can be found [here](#).
